

# DURGA PRASAD GUPT

Full Stack Web developer

Digital Marketing

Java Developer

## PROFILE

I am from Gorakhpur, Uttar Pradesh. I have done my high-school and intermediate from C.R.T.S.V.M. Intermediate College. I am a tech-enthusiast. And I believe in practical learning rather than theoretical that's why I made projects on every dev topic so that I could be clear with the concepts and be aware with their real-life implementations. And also, I believe in exploration that's why in my first year I joined UNYC Club to improve my communication skill and in my second year to enhance my technical skill I joined GFG-LPU and also, I am a campus-ambassador of geek-l-knack.

## CONTACT

## EXPERIENCE

### Excel-Clone

[HTTPS://GITHUB.COM/DURGAPRASADGUPT/EXCEL-CLONEPRO](https://github.com/DURGAPRASADGUPT/EXCEL-CLONEPRO)

I have made this project to enhance my HTML, CSS and JS knowledge. I have implemented 2-way binding, some calculations, multiple sheets and also give access to user that he could be able to download that sheet. You can also upload your file from your device.

### Automation

[HTTPS://GITHUB.COM/DURGAPRASADGUPT/AUTOMATION-PROJECT](https://github.com/DURGAPRASADGUPT/AUTOMATION-PROJECT)

In this project using script we will log-in to hacker-rank and will submit the code using automation. We don't have to do anything everything will be done by script.

### Web Scrapping

[HTTPS://GITHUB.COM/DURGAPRASADGUPT/SINGLE-MATCH-STATS](https://github.com/DURGAPRASADGUPT/SINGLE-MATCH-STATS)

In this project we scrapped the data from cricinfo site. In this project our aim is, to give you the batsman details of winning teams in tabular form. In this project we gave the tables of 2019 IPL matches.
